Men's Clothes

The man who buys clothes, has some plain hard facts to face. We don't care to predict how high clothes prices will go during 1918. There is no telling. Woollens are now selling at double and triple former prices and these in turn may be doubled and tripled by next fall and winter. You can figure the probable cost as well as we can ourselves. The time to buy is right NOW. Buy as many suits as you can afford and at least one suit. Study these prices carefully:

All suits not listed are cut 10 per cent.

JOE DESPAIN SAYS BOYS STILL "SMILE AND KEEP FIGHTING"

"Somewhere in France," Dec. 8, 17.

Dear Mrs. Daniels: I wish to write a few lines to thank you for the parcel which I received today. It was simply grand, especially by the cake, which arrived in fine shape after such a long journey. It made me homesick to see the name "The Delta" on the box as it brought back memories of childhood days in dear old Pendleton.

We are having a pretty good time over here at present. The weather is simply lovely for this time of year. I never felt better in my life than I do now and I hope you are the same. The Canadian corps has been through some hard fighting this last summer and fall, but the boys are still smiling for we know we are going to win before long.

Am glad that the U. S. is taking the war seriously and will soon be in it full force and to the finish. I have a little American flag that I have carried with me ever since I left the U. S. and it is one of the most precious things I have now. We sometimes get tired of this continual going in the trenches, coming out for a rest, then back in again, but we smile and carry on for we know we're fighting for the right and will win in the end.

Well, dear friend, as news is scarce I must close for this time. With best wishes and many thanks for the parcel, I am, Your friend,

PRIVATE T. R. DESPAIN.

Cancer is an excessive secretion, accompanied by chronic inflammation, from the mucous membrane. Hood's Sarsaparilla acts on the mucous membrane through the blood, reduces inflammation, establishes healthy action and radically cures all cases of cancer.

THANKSGIVING DAY ON BOARD WARSHIP WAS MUCH ENJOYED

The following letter from Earl Snyder tells something of life on one of Uncle Sam's big warships.

U. S. S. PENNAC, Dec. 2, 1917. My Dear Mother:

This is Sunday afternoon and there is no work to do now until they get down the decks for scrubbing clothes so I will tell you something of my last Thanksgiving. I wanted to write then but I didn't have time.

Well, we got up at the same time we always do, and had quarters at 8:15 as usual. Our captain read some very interesting verses from the Good Book with regards to the rules and regulations of the United States navy and marine corps. If anyone was heard of at that many times before but that is done. I forgot to tell you that we were at sea. Well, after quarters there was nothing to do all morning but sleep. At noon we had our Thanksgiving dinner. It was pretty good. We had some turkey, pigs, nuts, raisins, apples and, pork and cake. In the afternoon we had a smoker and I loved a three round draw with one of the marines. There were several other boats and some smoking I finished the day with a four hour watch on the bridge. It wasn't much like my last Thanksgiving but I had a pretty good time. I went to church this morning on the gun deck.

Well, I guess I will close now and press my clothes. Have a Merry Xmas.

Love to all, EARL.

LLOYD GEORGE ISSUES APPEAL LONDON, Jan. 8.—Premier Lloyd George has issued a strong appeal to the agricultural laborers of the kingdom to do their utmost to increase the production of food stuffs. The premier declared that the world shortage means that we may be compelled to feed the army and navy as well as ourselves on what we are able to grow at home.

JAPAN INFLUENCES THIS TUSSEN SMOCK

Above, a lovely American lady attired in a Japanese garden costume of the English and French peasant smock variety—a sort of allied combination in clothes.

The smock is of creamy tulle with rich Japanese embroidery finishing its kimono outlines, a soft, plain, crushed girdle supplanting the conventional obi of Japan.
